OurFirm LLP Mobile ResearchHub

This is 'ResearchHub', a new app from the Library which provides secure access to your online resources. User names, passwords or firm-wide logins for each resource are available.

The app also provides:

- A curated list of recommended apps that may be useful for business. Select the 'Recommended Apps' on the left to view the list.
- The ability to send research requests to the Library, using the 'New Research Request' link on the left.
- A guide to performing efficient research on your mobile device

The Library welcomes your feedback about how we can improve your ResearchHub in future. Please [email us](#) with any suggestions about what you'd like to be available through ResearchHub or if you have any issues accessing resources.

Mobile Access Guidelines

The materials the firm subscribes to are limited to YourFirm LLP employees and are not to be copied, emailed or shared it outside the firm.

Individuals are responsible for providing valid client matters when needed.

There are more electronic resources available via desktop than mobile. This list will grow as this application and the publishers
